Hi Nancy and all,

We were unaware of the EPA furloughs and understand, and will work to make it happen on the schedule as Joanna outlined. If we can get the report to you by May 13, all the better; we will try.

We too had been thinking that having an update briefing is a good idea. We should coordinate that soon.

Thanks very much!

Craig

Hi Craig and Joanna,

We will work to meet the three week turnaround on comments. In the proposed workplan, the time given was thirty days for stakeholders to provide comments. We can reduce this turnaround by one week, but we can not cut it down to as little as two weeks. EPA will also be affected by furloughs, which will cause several days of non-work status during that time. Would it be possible to receive a briefing on the results from the draft report, especially on any new information, and an early draft? If we can receive an early draft by May 13, 2013, we will make our best efforts to provide comments by June 3rd.

Thanks, Nancy

Hi all -

Henrieta will be traveling to Europe June 11-30. Do you think it would be possible to return the stakeholder reviews by June 3, particularly those from the EPA? This would allot the stakeholders 2 weeks review time. Henrieta says she should be able to communicate via email, but as this part of the report's findings is very team interactive (i.e. seep and nutrient flux rate integration with groundwater dispersal and travel time), so allotting the extra week for us here to work face to face with all necessary recalculations and domino-effect revisions would help a lot.

Thanks,
Craig

Hi All,

The contract modification process took longer than anticipated.
February 11, 2013 – Mod #4 sent to UH for signature and return to DOH
February 28, 2013 - Mod #4 signed by UH
March 21, 2013 - Approved Mod#4: UH able to start work
April 15, 2013 – Final Project Report due in draft form (in original Task #10)

I have adjusted the deliverables schedule and would like concurrence as soon as possible that this is acceptable to all.

May 20, 2013 - Final Lahaina Supplemental Report DRAFT (proposed via this email message)
June 10, 2013 – Stakeholder comments due to UH.
June 30, 2013 – Contract End Date & Final Report addressing Stakeholder comments.

Thanks,
Joanna

Hi Craig,

That should work for the final, but when will the draft be submitted? Are you saying the Final Draft by May 20? We would like time to review it between the draft and final due date. I have to defer to Joanna from DOH on how the new report schedule affects the Contract management and due dates.

Thanks, Nancy

Dear all,
After sorting out the schedules we feel that we can the Final Lahaina Supplemental Report ready on 20 May for your reviews. Can you please let us know if that date works for you?

Thanks very much,
Craig

Nancy and Joanna,

Although I attempted to get this done before Christmas, with the major delay in the MOD 4 start date - to April 16, I am going to need to ask for an extension for our delivery of the final report draft – currently scheduled for April 15. As to when, I am not yet entirely sure and I am trying to figure that out and will let you know with a more formal request soon. In any event it is my hope that this will not negatively impact the timing of final project close out.

Thanks,
Craig
